We moved from Center Street! Visit our new outpatient Rehabilitation Center on Salem Health's main campus. Designed to treat all ages, it features a larger aquatic therapy pool and an innovative over-head system that provides real-world therapy for improving gait and balance. Our ability to provide specialized, collaborative rehabilitation is unparalleled in the region.

Learn about our new equipment and how therapy will be customized even more—and, more conveniently located.

Please park in the Rehabilitation Center lot in front (enter off Mission St. between Church and Winter streets).
