

## COVID-19 Status Line

Review more information about a patient's COVID status from the Story Board. The new, dedicated COVID-19 status line is independent of the current infection line. This allows COVID-19 related information to be front and center. The below status' will be available in a hierarchical format. The status with the highest priority will be visible in Story Board. Additional information can be seen when you Hover To Discover.

Male, 57 y.o., 1/31/1963  
MRN: 2662893  
CSN: 68074898  
Bed: P221A  
Code: Not on file (no ACP docs)

Question	Response
In the last month, have you been in contact with someone who was confirmed or suspected to have Coronavirus / COVID-19?	No / Unsure
Have you had a COVID-19 viral test in the last 14 days?	No
Do you have any of the following new or worsening symptoms?	Cough;Diarrhea
Have you traveled internationally in the last month?	No

### Travel History Travel since 09/07/20

No documented travel since 09/07/20

COVID-19: Positive 4/29/2020
COVID-19: Suspected 4/22/2020
COVID-19: On Problem List 4/24/2020
COVID-19: Has Labs 4/28/2020
COVID-19: History 4/23/2020
COVID-19: Exposure/Symptoms
COVID-19: Travel Screened 4/28/2020
COVID-19: Unknown

1. **Positive:** The patient has an active confirmed infection.
2. **Suspected:** The patient has an active suspected infection. Not used for pre-surgical, discharge placement, or any other asymptomatic screening.
3. **On Problem List:** The patient has an active diagnosis on the problem list but does not have a documented confirmed infection, i.e. a positive in lab test.
4. **Has Labs:** The patient has a lab test currently in process for asymptomatic screening, has a negative lab result, or has a previously positive lab test that is now resolved. After 30 days, the previously positive result will transfer to History.
5. **History:** The patient had a confirmed infection or problem list diagnosis that is now resolved.
6. **Exposure/Symptoms:** The patient has a travel screening documented that indicates exposure to or symptoms of COVID-19.
7. **Travel Screened:** The patient has a travel screening documented.
8. **Unknown:** The patient doesn't meet any of the above criteria.

## Good to know:

For newborn patients, the birth mother's COVID-19 infection status also appears in their Storyboard:

<b>NEWBORN</b>
Delivery: None
 Sally
Mom COVID-19: Suspected 5/12/2020
