

Inpatient Rehabilitation referral and transfer documents needed

Care managers: If you are making a referral to Inpatient Rehabilitation, the following documentation is the minimum information needed to determine if the patient meets CMS criteria for inpatient rehabilitation services:

- Facesheet including insurance information
- PT, OT, SLP notes (initial and most recent 24 to 48 hours)
- Most recent physician progress note
- Admission H&P (or from most recent hospitalization if skilled nursing facility referral)
- Nursing notes (most recent 24 to 48 hours)
- MAR
- Current diet
- Reasonable discharge plan to community after IPR
- Support person name and contact if possible
- Anticipated discharge date
- Physician consults, procedure/operative notes
- Discharge summary
- Imaging reports
 - Echos
 - CT
 - MRI
 - Ultrasounds

Nurses: Once your patient has been accepted to inpatient rehab and is ready to transfer, please:

- Fax MAR and discharge orders to 503-814-4751
- Call report to 503-814-4703
